We are strengthening the policies on transparency and the communication channels that enable us to listen to our shareholders. We deliver value to our shareholders by striking a balance between the continued reinvestment in profitable growth of the Company, the positive impact created in our environment as a whole, and through offering an attractive and predictable distribution of dividends.
01/ Our shareholders

Involving shareholders in the decision-making process of the Annual General Meeting — our highest level governing body — means we can hear their clear mandate: to create value sustainably in the medium and long term.

Because of this, we are strengthening the policies on transparency and the communication channels that enable us to listen to our shareholders. We deliver value to our shareholders by striking a balance between the continued reinvestment in profitable growth of the Company, the positive impact created in our environment as a whole, and through offering an attractive and predictable distribution of dividends.

01.02/ Shareholder remuneration

Our shareholder remuneration policy, approved by the Inditex Annual General Meeting of Shareholders, aims to offer an attractive, predictable and sustainable dividend over time. This policy adheres to maintaining an adequate level of resources to assure continued investment for future company growth and value creation.

In line with this policy, in May and November of 2019, a dividend of 0.88 euros per share corresponding to 2018 was distributed to shareholders, amounting to a 17.3% increase from previous fiscal year.

02/ Shareholder relations

The relationships between Inditex and its shareholders — both current and potential — are governed by the Policy on Communication and Contact with Shareholders, Institutional Investors and Proxy Advisors and the Regulations of the Board of Directors.

Inditex guarantees that market participants (shareholders and potential shareholders in particular) have equal access to information. The Inditex website plays an important role in putting this policy of communicative transparency and equal access to information into practice: examples include the Investor Agenda, annual reports and presentations on the evolution of the Company.
In the interest of transparency, a full list of the entities and analysts that produce Inditex reports is also published on the corporate website (www.inditex.com).
