Transistion of a report originally issued in Spenish based on our work performed in accordance with the audit regulations in force in Spain. In the event of a discrepancy, the Spanish-language version prevails.

#### INDEPENDENT LIMITED ASSURANCE REPORT

To the Shareholders of Industria de Diseño Textil, S.A.,

We have performed the verification, with a scope of limited assurance, of certain non-financial information indicators included in the Annual Report ("the Annual Report") for the year ended 31 January 2020 ("2019") of Industria de Diseño Textil, S.A. ("Inditex") and Subsidieries ("the Group").

Our review work was confined solely to the verification of the information for 2019 identified by the symbol in the "GRI content index" section included in the accompanying Annual Report.

#### Responsibilities of the Directors and of Management

The preparation and content of the Group's Annual Report are the responsibility of the directors of Indixex. The Annual Report was prepared following the criteria of the comprehensive version of the GRI standards and other criteria described as indicated for each matter in the "GRI content Index" section of the aforementioned Annual Report.

These responsibilities also include the design, implementation and maintenance of such internal control as is determined to be necessary to enable the Annual Report to be free from material misstatement, whether due to fraud or error.

The directors and management of Inditex are also responsible for defining, implementing, adapting and maintaining the management systems from which the information necessary for the preparation of the Annual Report is obtained.

#### Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants (IESBA), which is based on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Our firm applies International Standard on Quality Control 1 (ISQC 1) and, accordingly, maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our engagement team consisted of professionals who are experts in reviews of non-financial information and, specifically, in information about economic, social and environmental performance.

#### Our Responsibility

Our responsibility is to express our conclusions in an independent limited assurance report based on the work performed, which relates solely to the information identified by the g symbol in the "GRI content index" section included in the accompanying Annual Report for 2019. This same information in 2018 was reviewed by another assurance provider who issued a report without any reservations.

We conducted our essurance work in accordance with the requirements established in International Standard

Columbs S., matrices of legacia-Measured de Matrio, torne 10,000, section of their 100, hope to 544 to decrease over C, C (8-79 Milesse Demokra exact Pleas in the Pietre S. ), force Project, C (807 Milesse Columbs)

on Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements other than Audits or Reviews of Historical Financial Information, currently in force, issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC), and with the guidelines published by the Spanish Institute of Certified Public Accountants on attestation engagements regarding non-financial information statements.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement and, consequently, the level of assurance provided is also lower.

Our work consisted in submitting inquiries to management of Inditex and to the management of various units of the Group that participated in the preparation of the Annual Report, reviewing the processes used to compile and validate the portion of information subject to review by us presented in the Annual Report, and carrying out the following analytical procedures and sample-based review tests for the information subject to review:

- Meetings held with Group personnel to ascertain the business model, policies and management approaches applied, and the main risks relating to these matters, and to obtain the information required for the external review.
- Analysis of the processes used to compile and validate the data for 2019 presented in the Annual Report relating to the indicators subject to review by us.
- Review of the information relating to risks and the policies and management approaches applied in relation to the material matters presented in the Annual Report to the extent that they affect the indicators subject to review by us.
- Verification, by means of sample-based tests, of the information relating to the indicators subject to review by us included in the Annual Report for 2019 and the appropriate compilation thereof based on the data furnished by the Group's information sources.
- Obtainment of a representation letter from the directors and management.

#### Conclusion

Our conclusion relates solely to the information subject to review specified in the "Our Responsibility" section of this report. Based on the procedures performed in our verification and the evidence we have obtained, nothing has come to our attention that causes us to believe that the information relating to the indicators subject to review by us contained in the Annual Report for 2019 of Industria de Diseño Textil, S.A. and Subsidiaries was not prepared, in all material respects, in accordance with the comprehensive version of the GRI standards, considering the information provided for each indicator and for each of the "other criteria" in the "GRI content index" section.

# **GRI** content index

This report has been prepared in accordance with the comprehensive option of the GRI Sustainability Reporting Standards.

Inditex adheres to the United Nations Global Compact since 2001. In the GRI Content Index of this Report, which also doubles as a Communication on Progress, the different parts of the document related to each of the Global Compact principles are indicated.

The following principles for defining report content included in the GRI Standard 101: Foundation 2016 have been used for the elaboration of this report:

- Stakeholder inclusiveness: Inditex identifies and keeps a constant dialogue with its stakeholders. By doing this, the Group is able to describe its further response to its stakeholders' expectations and interests.
- Sustainability context: Inditex contributes, or pretends to do so in the future, to the improvement of the economic, environmental and social trends, advances and conditions, at a local, regional or global level, all of them interconnected
- Materiality: Inditex covers those aspects and indicators which best reflect the organisation's most significant social, environmental and economic impacts, or those which could be substantially influential on its stakeholders' evaluations and decisions.
- Completeness: the scope of the material topics Inditex is using and the definition of the information's boundary must be enough to reflect the social, economic and environmental significant impacts and to allow that stakeholders are able to evaluate the Group's performance during the fiscal year.

A selection of 40 GRI disclosures identified in the materiality analysis carrried out by Inditex were reviewed by Deloitte S.L., pursuant to the revised International Standard on Assurance Engagements (ISAE) 3000,

Assurance Engagements Other than Audits or Review of Historical Financial Information, issued by the International Auditing and Assurance Standard Board (IAASB), and with Guideline on attestation engagements of the Statement on Non-financial Information issued by the ICJCE (Institute of Certified Public Accountants of Spain). These disclosures can be found in the GRI Content Index and are marked with this symbol:

### **Global Compact Principles**

**Principle 1.** Businesses should support and respect the protection of internationally proclaimed Human Rights.

**Principle 2.** Businesses should make sure that they are not complicit in Human Rights abuses.

**Principle 3.** Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining.

**Principle 4.** Businesses should uphold the elimination of all forms of forced and compulsory labour.

**Principle 5.** Businesses should uphold the effective abolition of child labour.

**Principle 6.** Businesses should uphold the elimination of discrimination in respect of employment and occupation.

**Principle 7.** Businesses should support a precautionary approach to environmental challenges.

**Principle 8.** Businesses should undertake initiatives to promote greater environmental responsibility.

**Principle 9.** Businesses should encourage the development and diffusion of environmentally friendly technologies.

**Principle 10.** Businesses should work against corruption in all its forms, including extortion and bribery.

For the GRI Content Index Service, GRI Services reviewed that the GRI content index is clearly presented and the references for all disclosures included align with the appropriate sections in the body of the report.

	306-1 Water discharge by quality and destination	174 www.inditex.com/en/our-commitment-to-the-environment/water			Principle 8
	306-2 Waste by type and disposal method	180-183 None of the waste generated is disposed of through deep-well injection or stored in-situ	Information on waste generated in own stores is not available with the level of disaggregation required in the company's systems. Inditex has several ongoing projects in order to be able to disclose this information in 2023.	☑ Pages 450-451	Principle 8
	306-3 Significant spills	There were no significant spills during the reporting period. With the aim of preventing them in the supply chain, the Inditex Group has committed with the Zero Discharge of Hazardous Chemicals and has joined the Changing Markets Foundation initiative whose aim is to manufacture a viscose that is responsible and sustainable at every step of the value chain. This will improve the management of waste and yield greater control over the productive process. Similarly, Inditex also supports the Roadmap towards responsible viscose & modal fibre manufacturing championed by this organisation			Principle 8
	306-4 Transport of hazardous waste	Inditex does not transport, import or export any of the waste classified as hazardous in the Basel Convention in any of the countries in which it operates			Principle 8
	306-5 Water bodies affected by water discharges and/or runoff	The water consumed at Inditex is discharged through the sewage networks and this is done with all the corresponding permits. In the event of incidents, Inditex analyses their root causes and searches for appropriate solutions. As a result, the organisation's water discharges and runoffs do not have a significant impact on water bodies and their habitats. As for its suppliers, and framed the pledge made in November 2012 to attain zero discharge of unwanted chemical substances by 2025, Inditex is working together with its suppliers under the scope of its 'Water in the Supply Chain Master Plan' in order to promote the sustainable use of this vital resource. Since 2016, we have been working on the provision of technical training in this supply chain, a project which consists of assessing our suppliers' environmental records and their technical capabilities with a view to helping them improve their environmental performance and, thus, build a more sustainable production chain and move towards zero discharges by 2020.  To learn more, please visit www.wateractionplan.com, specifically the 'Detox commitment' tab.  Also please see https://www.inditex.com/en/our-commitment-to-the-environment/water			Principle 8

	305-5 Reduction of GHG emissions	163, 165, 324		☑ Pages 450-451	Principles 8 and 9
	305-6 Emissions of ozone-depleting substances (ODS)	Plans have been created to replace air conditioning equipment with more efficient class A equipment for existing stores, guaranteeing the absence of gases that destroy the ozone layer. In addition, thanks to the eco-efficiency measures implemented in own stores, significant electrical savings have been achieved, especially in HVAC systems, since they can achieve at least 20% better performance and energy efficiency than conventional equipment.  The set of these actions to promote energy efficiency, added to the realization of our commitment to renewable energies, has allowed to reduce GHG emissions associated with our activity			Principles 7 and 8

GRI Standard	DISCLOSURE	PAGE NUMBER(S), URL AND/OR DIRECT ANSWER	OMISSIONS	EXTERNAL ASSURANCE	GLOBAL COMPACT Principles
	305-7 Nitrogen oxides (NOx), sulfur oxides (SOx), and other significant air emissions		Not applicable. This year we don't report other air emissions as they are deemed insignificant on account of the characteristics of the equipment and the frequency of the checks stipulated in prevailing legislation (controls are not required). The emission of particles deriving from transportation is generated by outsourced carriers so that this indicator is not applicable to the Group. Nevertheless, Inditex fosters enhanced emissions management and control in its value chain through the tool that enables calculation of emissions in accordance with the GHG Protocol, coupled with the definition of action plans		Principles 7 and 8
