

# How we report

# How we report

Inditex follows the guidelines of the leading reporting initiatives in order to prepare its Annual Report:

- GRI Sustainability Reporting Standards
- United Nations Global Compact Principles
- International <IR> Framework Principles
- AA1000 APS (2018) ACCOUNTABILITY PRINCIPLES STANDARD
- Principles of the SASB (Sustainability Accounting Standards Board) framework
- Recommendations of the Task Force on Climate-Related Financial Disclosure (TCFD)

Inditex presents its Annual Report as an integrated report, in keeping with the criteria of the Integrated Reporting Framework developed by the International Integrated Reporting Council (IIRC). Inditex is a member of the IIRC Business Network, and has adhered to its principles from the start of the initiative by virtue of its participation in the first pilot carried out by the organisation in 2011. Through this Report, we want to present to all our stakeholders how Inditex generates value in the short, medium and long term, as well as to provide truthful, relevant and accurate information on the financial results for the 2020 FY.

The principles used to prepare this Report include the use of the Global Reporting Initiative (GRI) Sustainability Reporting Standards, or GRI Standards, as a reference. We have been following the GRI criteria since 2007 and we are members of the GRI Community, a universe of companies from different sectors that work together, exhibit leadership in reporting and share knowledge and best practices.

The reporting principles contained in the standard GRI 101: Foundation 2016 have been used to establish the content of this report.

This report also includes a GRI Content Index as its main navigation tool and reference point for its readers. It was approved by the GRI Content Index Service for the sixth year running, and the GRI Alignment Service Organisational Mark is displayed in said index as proof thereof.

This Annual Report was thus prepared in accordance with the Comprehensive option of the GRI Sustainability Reporting Standards.

We also follow the principles of the United Nations Global Compact, of which we have been a member since 2001. This Report also has the function of the Communication on Progress, and the GRI Index presents the different parts of the document that are related to each Global Compact principle.

As prescribed by the above-mentioned standards, this report addresses all matters reflecting Inditex's significant economic, environmental and social impacts that could have a substantial influence on the assessments and decisions of its stakeholders. These areas are identified and evaluated on the basis of a materiality exercise involving the main stakeholders.

 For more information, see the *Materiality analysis* section of this Annual Report.

For the first time, in 2020 we used the SASB (Sustainability Accounting Standards Board) reporting framework as a reference. Specifically, the guidelines in the standard for the Apparel, Accessories and Footwear sector were followed and a SASB reference table is included, which reflects the disclosures and metrics related to this standard.

In addition, in an effort to provide greater transparency on the risks and opportunities that climate change poses to our Company, in 2020 we showed our support for the TCFD (Task Force on Climate-Related Financial Disclosures), and we have started the process of including the TCFD's recommendations. As a result, this Annual Report includes a specific chapter on how we are managing the risks and opportunities associated with climate change. A TCFD Index is also included that references all the related relevant information. Our goal is to continue to make progress consistent with the TCFD in order to fully incorporate its recommendations in future fiscal years. To this end, we have created a multifunctional working group whose mission is to analyse, manage and adapt our climate-related disclosure and management framework to the recommendations of the TCFD.

 For more information, please see chapter 3.2. *Alignment with the Task Force on Climate-related Financial Disclosures (TCFD)* of this Annual Report.

In addition, the guide *Business Reporting on the SDGs: An Analysis of Goals and Targets*, developed by the Action Platform for Reporting on the Sustainable Development Goals, was used for the fourth consecutive year. The platform, organised by the United Nations Global Compact and the Global Reporting Initiative, and of which Inditex was a member since its launch, concluded its work in 2020. In this way, accurate information on the contribution to the United Nations Sustainable Development Goals (SDGs) is provided.

 For more information in the *Appendices* of this Annual Report.

## External assurance

This report has been reviewed by Deloitte, S.L., in accordance with the revised ISAE 3000 standard, *Assurance Engagements other than Audits or Reviews of Historical Financial Information*, and with Guideline no. 47 on *Attestation Engagements of the Statement on Non-Financial Information* issued by the Institute of Certified Public Accountants of Spain. Based on both standards, a selection of 40 disclosures from the GRI Standards were reviewed. These disclosures were selected on the basis of the materiality analysis that Inditex carries out annually with its stakeholders. These disclosures may be found in the GRI index, marked with the following symbol: 

The outcome of the external assurance process corroborates the appropriateness of the reported GRI Standards application option (In-accordance – Comprehensive).

CG-AA-430b.1	<p>All our suppliers and manufacturers are audited against our Code of Conduct for Manufacturers and Suppliers. This verification is carried out initially through a pre-assessment audit - carried out to all companies before they can become part of our supply chain - and subsequently periodically through social audits.</p> <p>Specifically, 25% of the suppliers and 44% of the factories active in the year 2020 were audited either through a pre-assessment or social audit during this same period. This percentage has been influenced by the context caused by the covid-19 pandemic and the restrictions on mobility and lockdowns derived from the same. On the other hand, it is necessary to take into account that the periodicity of the social audits varies depending on the ranking obtained in the previous audit. In this sense, the interval between audits of suppliers or manufacturers with A or B rankings will be longer than in those with a C or D ranking. In fiscal year 2020, 96% of suppliers were ranked A or B.</p> <p>In 2020, 3,052 pre-assessment audits were carried out (99.7% carried out by external auditors), and 5,689 social audits (95.1% carried out by external auditors). ## INDEPENDENT LIMITED ASSURANCE REPORT

To the Shareholders of Industria de Diseño Textil, S.A.,

We have performed the verification, with a scope of limited assurance, of certain non-financial information indicators included in the Annual Report ("the Annual Report") for the year ended 31 January 2021 ("2020") of Industria de Diseño Textil, S.A. ("Inditex") and Subsidiaries ("the Group").

Our review work was confined solely to the verification of the indicators for 2020 identified by the  symbol in the "GRI content index" section included in the accompanying Annual Report.

### Responsibilities of the Directors and of Management

The preparation and content of the Group's Annual Report for 2020 are the responsibility of the directors of Inditex. The Annual Report was prepared following the criteria of the comprehensive version of the GRI standards and other criteria described as indicated for each matter in the "GRI content index" section of the aforementioned Annual Report.

These responsibilities also include the design, implementation and maintenance of such internal control as is determined to be necessary to enable the Annual Report to be free from material misstatement, whether due to fraud or error.

The directors and management of Inditex are also responsible for defining, implementing, adapting and maintaining the management systems from which the information necessary for the preparation of the Annual Report for 2020 is obtained.

### Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), which is based on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Our firm applies International Standard on Quality Control 1 (ISQC 1) and, accordingly, maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our engagement team consisted of professionals who are experts in reviews of non-financial information and, specifically, in information about economic, social and environmental performance.

### Our Responsibility

Our responsibility is to express our conclusions in an independent limited assurance report based on the work performed, which relates solely to the indicators identified by the  symbol in the "GRI content index" section included in the Annual Report for 2020.

We conducted our assurance work in accordance with the requirements established in International Standard on Assurance Engagements (ISAE) 3000 Revised, Assurance Engagements other than Audits or Reviews of Historical Financial Information ("ISAE 3000 Revised"), currently in force, issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC).

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement and, consequently, the level of assurance obtained is substantially lower.

Our work consisted of submitting inquiries to management of Inditex and to the management of various units of the Group that participated in the preparation of the Annual Report for 2020, reviewing the processes used to compile and validate the portion of the indicators subject to review by us included in the Annual Report, and carrying out the following analytical procedures and sample-based review tests:

- Meetings held with Group personnel to ascertain the business model, policies and management approaches applied, and the main risks relating to these matters, and to obtain the information required for the external review.
- Analysis of the processes used to compile and validate the data for 2020 presented in the Annual Report relating to the indicators subject to review by us.
- Review of the information relating to risks and the policies and management approaches applied in relation to the material matters presented in the Annual Report to the extent that they affect the indicators subject to review by us.
- Verification, by means of sample-based tests, of the information relating to the indicators subject to review by us included in the Annual Report and the appropriate compilation thereof based on the data furnished by the Group's information sources.
- Obtainment of a representation letter from the Directors and Management.

---

### Conclusion

Our conclusion relates solely to the information subject to review specified in the "Our Responsibility" section of this report. Based on the procedures performed in our verification and the evidence we have obtained, considering the information provided for each revised indicator in the "GRI content index" section, nothing has come to our attention that causes us to believe that the indicators subject to review by us contained in the Annual Report for 2020 of Industria de Diseño Textil, S.A. and Subsidiaries were not prepared, in all material respects, in accordance with the comprehensive version of the GRI standards.

<b>GRI 401: EMPLOYMENT 2016</b>					
	401-1 New employee hires and employee turnover	Turnover at the Inditex Group, including voluntary departures, was 31.9% in 2020 (31.2% among women and 34.2% among men). By age category, turnover was 49% among the under 30s, 11% among those aged between 30 and 45; and 4.6% for those over the age of 45.  Turnover varied considerably by region: 87.7% in Asia; 50.9% in the Americas; 20.9% in Europe (excluding Spain); and 8.5% in Spain.  In 2020, permanent hires totalled 14,979, implying a permanent employee hiring rate of 11.9%. Of that figure, 74% are women and 26% are men; 94% are under the age of 30, 5% are aged between 30 and 45 and 1% are over 45. In addition, 1% of the permanent hires took place in Spain; 35% in Europe (excl. Spain); 25% in the Americas; and 39% in Asia and RoW.		<input checked="" type="checkbox"/> Pg. 578-579	Principle 6
	401-2 Benefits provided to full-time employees that are not provided to temporary or part-time employees	The Group provides the same benefits to temporary and part-time workers as it does to full-time workers.

<b>GRI 402: LABOR/MANAGEMENT RELATIONS 2016</b>					
402-1	Minimum notice periods regarding operational changes	The collective bargaining agreements in force do not include a minimum notice period for officially communicating significant operational changes at Inditex. However, whenever a significant development takes place, it is notified with the advance notice stipulated in prevailing legislation (article 41 of the Spanish Workers' Statute)			Principle 3
<b>GRI 407: FREEDOM OF ASSOCIATION AND COLLECTIVE BARGAINING 2016</b>					
407-1	Operations and suppliers in which the right to freedom of association and collective bargaining may be at risk	208-213, 362, 370 Inditex's Code of Code of Conduct and Responsible Practices specifically addresses the right to freedom of association and collective bargaining. That Code applies to all of the Group's operations. The Code of Conduct for Manufacturers and Suppliers, which applies to all of the Group's suppliers, also enshrines this right. The programme for supervising compliance with Inditex's Code of Conduct for Manufacturers and Suppliers assesses compliance with workers' right to freedom of association.			Principle 3
<b>OTHER DISCLOSURES: EMPLOYMENT</b>

AF30	Percentage of workplaces where, in the absence of a trade union, there are worker-management committees, broken down by country.	The Group does not participate in worker-management committees in the absence of a trade union.			
<b>OTHER DISCLOSURES: WAGES AND HOURS</b>					
AF25	Policy and practices on wage deductions that are not mandated by law	Inditex does not apply wage deductions that are not mandated by law.			
AF26	Policy on working hours, including definition of overtime, and actions to prevent excessive and forced overtime	99 According to the Group's Code of Conduct and Responsible Practices, weekly working hours and overtime cannot exceed the limits stipulated in each country's labour legislation. Overtime is in all instances voluntary and remunerated as set down in applicable legislation. Elsewhere, the Inditex Group's Human Rights Policy sets down its zero tolerance stance towards forced or compulsory labour, as defined in ILO Convention 29. All of the foregoing applies to its own employees and its supply chain workers and any other natural and/or legal person related with Inditex. Moreover, the Code of Conduct sets down how the Group upholds and fosters compliance with human and labour rights, expressly committing to apply applicable regulations and best practices in the areas of employment terms and occupational health and safety, forbidding all forms of violence, harassment and abuse in the workplace.

	305-6 Emissions of ozone-depleting substances (ODS)	299, 356 There are plans in place to replace air conditioning units in existing stores with more efficient Class A units in order to ensure the non-emission of ozone-depleting substances. In addition, thanks to the ecoefficiency measures deployed across the Group's owned stores, the Group has unlocked significant savings in electricity, particularly in its HVAC systems, as the ecoefficient devices installed deliver energy performance and efficiency improvements of at least 20% compared to conventional equipment. Those specific energy efficiency initiatives, coupled with materialisation of our strategic commitment to renewable energy, have driven a reduction in the GHG emissions associated with our business activities.			Principle 7 and 8
	305-7 Nitrogen oxides (NOX), sulfur oxides (SOX), and other significant air emissions		Not applicable. We do not disclose information about other air emissions as they are considered non-material due to the characteristics of the devices and the equipment review frequency stipulated in prevailing legislation (controls are not necessary). The emission of particles deriving from transportation is generated by outsourced carriers so that this indicator is not applicable to the Group. Nevertheless, Inditex fosters enhanced emissions management and control in its value chain through the tool that enables calculation of emissions in accordance with the GHG Protocol, coupled with the definition of action plans. 303-5	Water consumption	304-305 Inditex discloses information about water consumption at all of its offices, own factories, own logistics centres and all its own stores worldwide. The water supplied to all workplaces, whether for processing or consumption, is withdrawn from authorised public supply networks. Moreover, all of its water supply comes from areas experiencing low or no water stress.	The disclosure of water consumption in areas experiencing water stress is not applicable as Inditex's business is to distribute fashion garments (clothing, footwear and accessories) and home textile products, which it procures as finished products from its suppliers. In short, water consumption is not material on account of its business model and all of its water supply is sourced from areas that present low or no water stress.  As for its suppliers, the Company has a number of policies and assessment and improvement programmes (e.g., Code of Conduct for Manufacturers and Suppliers, Green to Wear 2.0, etc.) designed to drive environmental sustainability across its supply chain.	<input checked="" type="checkbox"/> Pg. 578-579

306-2	Waste by type and disposal method	262-281, 324-327 None of the waste generated is disposed of by deep well injection or stored on site.	The Company's systems are not currently capable of producing disclosures about the waste generated in its proprietary stores with the level of detail required. Inditex has a number of projects underway with the aim of being able to comply with this disclosure requirement by 2023.	<input checked="" type="checkbox"/> Pg. 578-579	Principle 8
306-3	Significant spills	There were no significant spills during the reporting period. In order to prevent spills in the supply chain, the Inditex Group has endorsed the Zero Discharge of Hazardous Chemicals initiative and adhered to the Changing Markets Foundation in relation to the manufacture of responsible and sustainable viscose all along its value chain. Framed by those initiatives, the Group is improving its use of chemicals, its waste processes and their management, so gaining greater control over the productive process. In that same vein, Inditex supports the Roadmap Towards Responsible Viscose & Modal Fibre Manufacturing championed by the Changing Markets Foundation.			Principle 8
306-4	Transport of hazardous waste	Inditex does not transport, import or export any of the waste classified as hazardous in the Basel Convention in any of the countries in which it operates.			Principle 8
306-5	Water bodies affected by water discharges and/or runoff	301, 304-305, 356, 363, 434 The water consumed by Inditex is withdrawn from municipal supply networks, in all instances with the corresponding government authorisations. In the event of incidents, Inditex analyses their root causes and searches for appropriate solutions. As a result, the organisation's water discharges and runoffs do not have a significant impact on water bodies and their habitats. As for its suppliers, and framed the pledge made in November 2012 to attain zero discharge of unwanted chemical substances by 2025, Inditex is working together with its suppliers under the scope of its "Water in the Supply Chain Master Plan" in order to promote the sustainable use of this vital resource. Since 2016, we have been providing the supply chain with technical training addressing the environmental assessment of the wet processes involved in the manufacture of textiles by our suppliers, providing them with technical skills for improving their environmental performance and thereby moving towards achieving more sustainable production and zero waste. 	103-2 The management approach and its components	52-53, 306-309, 328-331 In its Code of Conduct, Inditex pledges to minimise the environmental impact of its products in respect of their entire life cycle. Inditex's Biodiversity Policy ( <a href="http://www.inditex.com/documents/10279/242165/Inditex+Biodiversity+Strategy">www.inditex.com/documents/10279/242165/Inditex+Biodiversity+Strategy</a> ) sets down its biodiversity protection and conservation targets, which it defined following the principles established in the United Nations Convention on Biological Diversity and acknowledging the Work of the International Union for Conservation of Nature (IUCN). To guarantee application of this strategy, these principles are layered into the master plans of each of the key areas comprising the business model. The Inditex Group applies responsible production standards in relation to the use of products of animal origin. Inditex has a dedicated animal welfare policy ( <a href="http://www.inditex.com/en/our-commitment-to-the-environment/closing-the-loop/sustainable-materials/animal-welfare">www.inditex.com/en/our-commitment-to-the-environment/closing-the-loop/sustainable-materials/animal-welfare</a> ) and a Biodiversity Strategy ( <a href="http://www.inditex.com/documents/10279/242165/Inditex+Biodiversity+Strategy">www.inditex.com/documents/10279/242165/Inditex+Biodiversity+Strategy</a> ), which establishes management criteria for the entire value chain.
